EDUCATION

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.Tech CSE	Bundelkhand Institute of Engineering and Technology, Jhansi	8.48	Jun 2027
Senior Secondary	CBSE	84.2	Apr 2023
Secondary	CBSE	89	Apr 2021

PROJECTS

- **Project A: AI Coding Guru - AI-Powered Code Reviewer** Jun 2025
Tech Stack: React (Vite), Node.js, Express, Gemini AI 
 - Developed an AI-based web app that reviews code using Google's Gemini AI, providing real-time bug detection, suggestions, and explanations.
 - Built a clean and minimal UI using React + Vite with no user login or database dependencies.
 - Integrated Gemini API in Node.js backend to process user code and return structured AI feedback. the app for instant use: just paste code → get reviewed → improve.
- **Project B: Alumni Management System** Apr 2025
Tools: Java, Object Oriented Programming, JDBC, JavaServer Pages, Servlet, MySQL, BCrypt 
 - Developed an alumni management system using Java, JSP, and MySQL for facilitating networking and job opportunities for alumni and students.
 - Implemented secure user authentication and alumni verification by enabling college ID uploads, unlocking access to exclusive features post-verification.
 - Built a job referral system enabling alumni to share job opportunities with students and fellow alumni, fostering career growth and networking
 - Integrated an admin dashboard to manage users and verify alumni accounts post college ID verification.
- **Project C: Hospital Management System** Dec 2024
Tools: Java, Object Oriented Programming, JavaServer Pages, Servlet, JDBC, MySQL, BCrypt 
 - Developed a Hospital Management Application using Java, JSP, Servlet, and MySQL, providing an end-to-end system for efficient hospital operations and record management.
 - Implemented user authentication and authorization for Admin, Doctor, and User roles using Servlets and BCrypt, ensuring secure registration, login, and access control.
 - Designed a modular system with role-based access control (RBAC), allowing only authorized users to perform sensitive actions like editing doctor or patient records.

SKILLS

- **Programming Languages:** Java, C, JavaScript, Python
- **Frontend and Backend :** HTML, CSS, Javascript, Bootstrap, TailwindCSS, JavaServer Pages, NodeJS, ExpressJS, NextJs Vite, MySQL, MongoDB, Servlet, SpringBoot
- **Computer Fundamental:** OOPs, Operating System, Data Structure and Algorithm
- **Tools:** GitHub, Eclipse, VS Code, PostMan

ACHIEVEMENTS

- Recipient of Cadence Scholarship for Higher Education awarded by Cadence Design Systems.
- Winner in ChillHack 2025 (48-Hour Hackathon) Secured 1st place for building an innovative solution.
- 1st Prize, CodersCup Competitive Coding Competition by CoSSCo Club (Won Twice)

POSITIONS OF RESPONSIBILITY

- **Coordinator** at Training and Placement Cell Sep 2024 - Present
- **Coordinator** at Computer Science Students Council(CoSSCo) Feb 2024 - Present
